100% Pure  
Fresh Frozen Aloe Vera Gel

Discover the  
healing potential  
of Aloe #1®.

**Not all aloe vera gels are the same.**

Mr. Stockton found through his research that for nutritional purposes, the most effective aloe vera gel comes from the unique Barbadensis-Miller-Stockton specie. He believed that 100% pure aloe vera gel, unadulterated, should be used to achieve maximum benefits. This specie has been a popular choice among many healthcare professionals for its nutritional content.

Rodney Stockton, the founder of Aloe#1® Health Drink, had been studying, cultivating and pioneering the benefits of aloe vera since 1953. After receiving a severe sunburn on vacation to Florida in 1941, he was moved to develop a product that could effectively treat sunburns. Realizing there was nothing on the market to treat his burn, he returned to Florida in search of an answer. Stockton learned of a nurse working for the State of Florida at the Seminole Indian Village near Davie, Florida. She had seen what the Seminoles used to effectively treat sunburn, so Stockton met with a Seminole medicine man who pointed out aloe vera as the healing plant. Stockton then studied a local source of aloe from a botanical garden in Homestead, Florida. The garden's owner told how this particular aloe vera was known as the "Virgin Trinity" plant because it was claimed to be a descendant of the plant that Nicodemus used to anoint Jesus' body after the crucifixion.

Stockton then conducted extensive research of many different species of aloe vera plants that grew in various countries around the tropics and the South Atlantic Ocean. These aloes were tested for their healing properties in comparison to the Barbadensis-Miller-Stockton specie. The conclusion of these tests was that 12-15% of these aloe species possessed no healing properties at all and the rest had only certain degrees of healing properties depending on their environmental conditions. **He declared that no other specie compared to the healing potential of the Barbadensis-Miller-Stockton specie. This is the very plant that is used to create the unique Stockton Aloe 1, Inc. products for sale today.**

## The Genuine Aloe Vera Gel Benefits:

**Increases resistance against infection and disease:** Aloe vera is a potent immunomodulator, meaning it balances out the immune system. Studies with HIV and Aids patients have seen amazing results. The mitogenic activity of aloe vera stimulates replication of white blood cells, which attacks invading organisms.

**Supports the growth of hair, nails and tissue:** Aloe vera has traditionally been used by different cultures to stimulate hair growth.

**Reduces inflammation:** There is research that suggests aloe vera has anti-inflammatory properties, decreasing inflammation in the joints, tissues and internal organs.

**Provides natural antacid relief:** Aloe vera has been shown to deactivate pepsin in the stomach, helping patients with Acid Reflux. Other gastrointestinal issues such as Crohn's Disease, IBS and Colitis have shown improvement when drinking aloe vera.

**Stimulates cellular health:** Aloe vera is a biogenic stimulator. Every organ in the body is made up of cells—when you improve cellular health the whole organism improves.

**Increases Energy:** Aloe vera appears to rapidly build-up the immune system and increase circulation.

**Regulates Diabetes:** Clinical studies have shown aloe vera's anti-diabetic properties by supporting the regulation of blood sugar levels.

**Improves Oral Health:** Taking aloe vera may benefit oral health, combating a variety of periodontal issues, such as dry sockets, cold sores and degenerating gum tissue.

# STOCKTON Aloe 1

Mr. Rodney Stockton was the first to commercialize Fresh Frozen Aloe #1® Health Drink. By harvesting and immediately freezing the precious aloe vera gel, Stockton Aloe 1, Inc. distributes unadulterated aloe vera, maintaining nutritional value without added preservatives or fillers.

### Hippocrates Endorsement:

Dr. Brian Clement and doctors at the Hippocrates Health Institute in West Palm Beach, Florida recommend the fresh frozen Barbadenis-Miller-Stockton species of aloe vera for its numerous health benefits.

*"I have been drinking 3 and some days 4 (8 oz.) glasses of the Fresh Frozen Aloe #1® Health Drink for the past three years and found that by continuing this regimen my Hepatitis C is in remission."*

—A. S., Fort Lauderdale, Florida

*"I am a healthy 54-year-old woman. Four years ago I was told by doctors I had an incurable, recurring auto-immune disease called Lichen Planus. After drinking the Fresh Frozen Aloe #1® Health Drink for about two weeks, it cleared up. As long as I have been drinking 8 oz. a day, my disease has NOT recurred."*

—L.P., Fort Lauderdale, Florida

## PRODUCTS

### Fresh Frozen Aloe #1® Health Drink 4 Gallon Bucket

Shipped frozen to preserve freshness. Ground shipping to most places in the U.S. is 2-3 days. By the time you receive your bucket, it will be mostly thawed. It should be immediately poured into smaller containers and refrozen until needed. We recommend using half gallon containers. Fill the half gallon containers about 3/4 full and then re-freeze. This leaves plenty of room for the aloe vera to expand during re-freezing.

### Fresh Frozen Aloe #1® Health Drink 58 oz. Jug

We ship fresh frozen. By the time you receive your jug it will be mostly thawed. Please place it promptly in the refrigerator or in the freezer for later use. You may re-freeze Aloe #1® Health Drink.
